

3RD BURN & WOUND MANAGEMENT

MULTIDISCIPLINARY TEAM 14th Upper Egypt-Plast

Welcome Message

Dear Colleagues, 3rd Burn & Wound Management Multidisciplinary Team

On Behalf of all my sharing colleagues from Plastic surgery department Beni-Suef University who are caring about the proper management of burned and wounded patients, I am excited to invite you to attend and participate in this important event.

This conference is an opportunity for us to come together and learn about the latest advances in burn and wound care from all aspects, & advocacy.

This year in our third version and the 14th edition of Upper Egypt Plast, we added more activities and events beside the main scientific day In Crowne Plaza Hotel with our sharing partners there are two tailored & focused workshops for young plastic surgeons

especially dealing with burns & wound management in the main conference hall in Sheikh Zayed Specialized Hospital. As usual we did not forget our beloved young survivors with a full day entertainment in Cityscape Mall - October city.

Multidisciplinary teamworking is managing a problem with different pathologies by

different specialties. MDT is well established in the management of Burn and chronic wound patients and is associated with improved outcomes and patient experience.

Thanks to all sharing specialties who make it possible especially the Clinical Nutrition, Chest, pediatric, and ICU departments. The combination of these Disciplines will ensure optimal exchange of knowledge and constructive interaction. It will be an exciting time to share experience and to create a synergy between our Teams.

We will discuss different topics like : Acute Burn Management, Pediatric Burns, Electrical Burns, Burn Dressing, Chemical Burns, Clinical Nutrition Therapy, ICU management & psychotherapy, and lastly, we will discuss Qualities of an Effective Examiner in Plastic & Reconstructive surgery.

This conference is a testament to the dedication and hard work of our Team in Collaboration with the Egyptian Society of Plastic Surgeons, who were committed and Believing in the need to advance the field of burn and wound care.

We are grateful for your participation and contribution to Our Conference.

Thank you and welcome!

BURN & WOUND MANAGEMENT

MULTIDISCIPLINARY TEAM 14th Upper Egypt-Plast

10:00am – 10:10am Registration

10:10am - 04:30pm

Workshop II: POCUS for Plastic Surgeons

Course Director: Dr. Hesham Temraz

Faculty (Alphabetically):

Dr Maryam Ahmed - Dr Moaz Sharshar

- 35 min **Session 1: Fundamentals of Ultrasound in Flap Surgery**
Lecture: US principles, Doppler physics
Hands-on: Machine settings & artifact correction
- 35 min **Session 2: Flap Hot Zones & Vascular Mapping**
Lecture: Key perforator zones, Doppler indices
Hands-on: Vessel mapping & diameter measurement
- 35 min **Session 3: Perforator Selection & Flap Design**
Lecture: Septocutaneous vs. musculocutaneous perforators
Hands-on: Flap planning with Doppler
- 35 min **Session 4: U/S guided dissection and perforator harvesting**
Lecture: Dissection guidance techniques
Hands-on: Simulated perforator dissection
- 35 min **Session 5: Postoperative Monitoring & Complication Detection**
Lecture: Edema, seroma, hematoma, ischemia
Hands-on: Simulated complication diagnosis

BURN & WOUND MANAGEMENT

MULTIDISCIPLINARY TEAM 14th Upper Egypt-Plast

10:00am – 10:10am Registration

10:10am - 04:30pm

Workshop II: POCUS for Plastic Surgeons

Course Director: Dr. Hesham Temraz

Faculty (Alphabetically):

Dr Maryam Ahmed - Dr Moaz Sharshar

- 35 min **Session 6: Advanced Techniques – Propeller Flaps & Free Flap Monitoring**
Lecture: Rotation, perfusion tracking
Hands-on: Flow prediction & flap viability
- 10 min **Break**
- 35 min **Session 7: Aesthetic Ultrasound Applications**
Lecture: Cosmetic safety, filler localization
Hands-on: US-guided cosmetic practice
- 35 min **Session 8: Breast Ultrasound in Plastic Surgery**
Lecture: Implant visualization, fat grafting follow-up
Hands-on: Breast scanning techniques
- 35 min **Session 9: Ultrasound in Wound Care & Burn Management**
Lecture: Real-time wound assessment, granulation
Hands-on: US-guided wound evaluation
- 25 min **Q&A / Expert Panel Discussion**
- 15 min **Closing Remarks & Certificate Distribution**
